Art Unit: 3652

1. This application is in condition for allowance except for the following formal matters:

A. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the guide element comprising a cable (claims 4-7) must be shown or the feature(s) canceled from the claim(s). **No new matter should be entered.**

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

B. Claims 1-12 are objected to because of the following informalities:

In claim 1, line 6, "the warehouse goods" should be --goods from the rack--;

line 17, "the" should be --a--;

and line 23, "or" should be --for--.

Claims 2, 10, and 11 should have a period added to the end.

Claims 6, 7, and 8 refer to plural "lifting devices"; however, claim 1 from which these claims depend recites a single "lifting device for the lifting platform" as well as "a lifting device or (sic) each guide element". Thus, either claim 1 or claims 6-8 should be appropriately amended for clarity and consistency.

In claim 10, line 2, "if" should be --of--;

and line 6, a comma should be inserted between "roller" and "the".

In claim 12, last line, "in particular" should be deleted.

Appropriate correction is required.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

2. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Germany on 2/5/03. It is noted, however, that applicant has not filed a certified copy of the German application as required by 35 U.S.C. 119(b).

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
